Subject: Snowy 2.0 Transmission Connection – Traffic and Transport Management Plan

Dear Mr Snape,

I refer to your submission requesting review and approval of the revised Traffic and Transport Management Plan in accordance with the Infrastructure Approval for Snowy 2.0 Transmission Connection (SSI-9717). I also acknowledge your response to the Department's review comments and request for additional information.

The Traffic and Transport Management Plan received conditional approval from the Planning Secretary on 4 April 2025 (SSI-9717-PA-88), with a requirement to update the document to address the requirements of Schedule 2, Condition B32 including an oversize overmass (OSOM) route analysis.

It is noted the Traffic and Transport Management Plan:

- has been prepared in consultation with Transport for NSW (TfNSW) and Snowy Valleys Council (SVC) with no outstanding issues;
- has been updated to incorporate additional details relating to the movement of high-risk OSOM deliveries (part of Stage 2 activities as approved under the PA-12 staging request); and
- contains the information required by the conditions of approval.

Accordingly, as nominee of the Planning Secretary, I approve the revised Traffic and Transport Management Plan (Revision 0.24 dated 9 February 2026).

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Katie Weekes on 4927 3223.

Yours sincerely

Nicole Brewer
Director
Energy Assessments
As nominee of the Planning Secretary
